

A Little about myself:

I am Vanessa Venter, born in Windhoek, the capital of Namibia. I am still living here with my husband and two children.

Ever since I can remember I loved singing. Even before school I would sing whenever the occasion holds it.

During my school years up till today I acquainted myself with musical skills and knowledge in Singing, guitar, musical theory, drumming and even now the 10 string harp. Singing at different occasions throughout Namibia and even once in Israel.

My passion for being God's instrument in Praise and Worship was embraced by Oil of Richness that facilitates God's heart in the restoration of identity and destiny. Becoming a member to this ministry, least did I know how I would be restored and launched from this move of God, into my destiny.

It is in this circle of companionship that my purpose gets defined in releasing songs that were heavenly birthed as I witness the transformation and freedom I find in Jesus Christ!

About Life Jacket:

I had Covid19 this year June and decided to write a song about my spiritual experience during that time.

My main focus of the song is to give people hope and to "Clothe themselves with Christ Jesus" according to Rom 13:14 Declaring Him (Jesus) as our Life Jacket, Life line, Anchor, Rock and Firm foundation! Also to discern between the voice of life and the voice of death according to John 10:10 and to Choose Life!(Duet 30:19)

We all live in challenging times but we need to know and understand that we are born for a time such as this and that with Him we can make a difference in this world Jer 29:11.
